

Tracer l'image du triangle ELX par la translation qui transforme S en R .

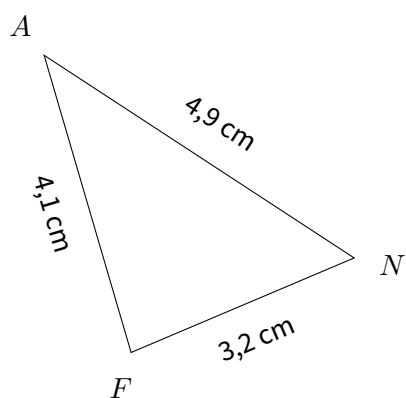

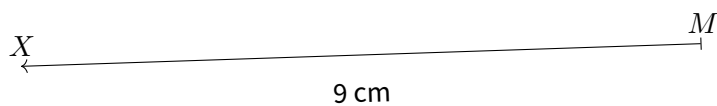

Tracer l'image du triangle ABP par la translation qui transforme S en W .

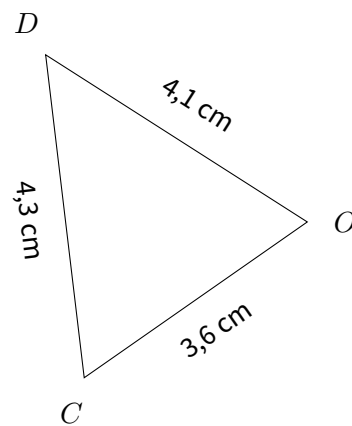

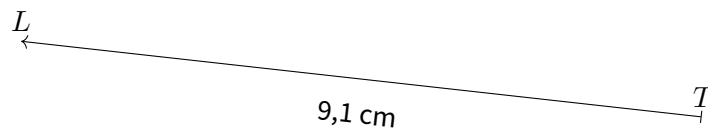

Tracer l'image du triangle FNA par la translation qui transforme M en X .

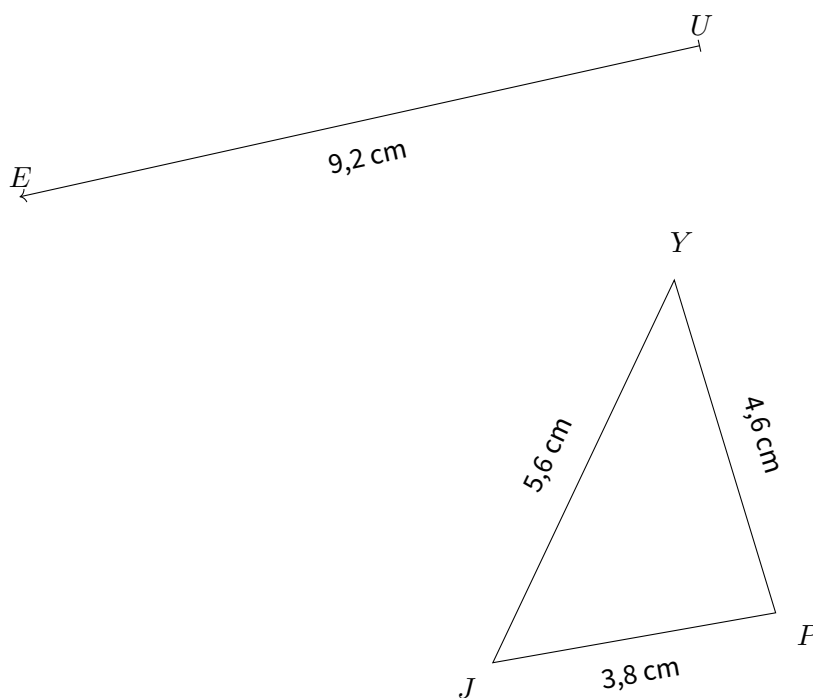

Tracer l'image du triangle COD par la translation qui transforme T en L .

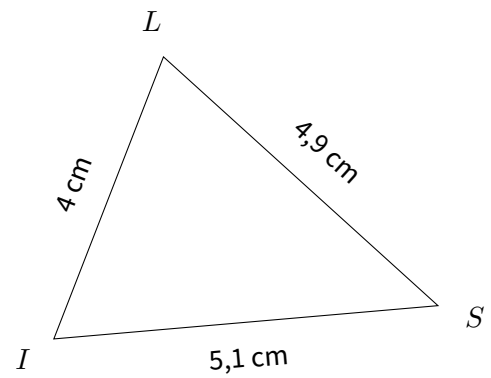

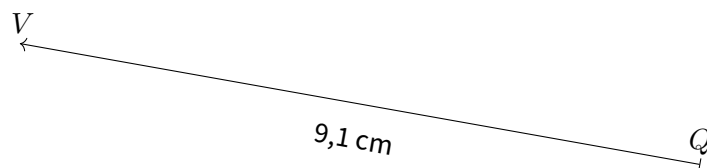

Tracer l'image du triangle JPY par la translation qui transforme U en E .

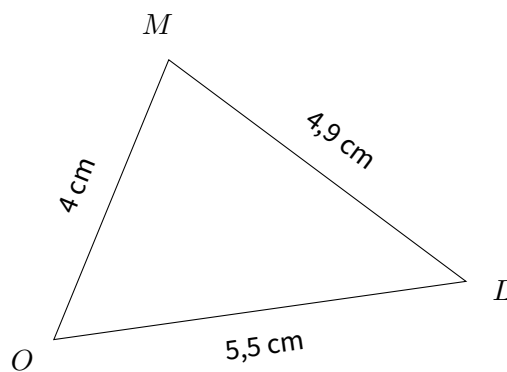

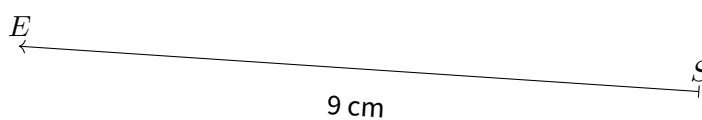

EX
1

Tracer l'image du triangle ISL par la translation qui transforme Q en V .

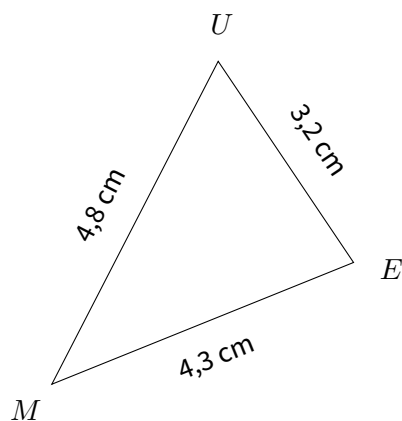

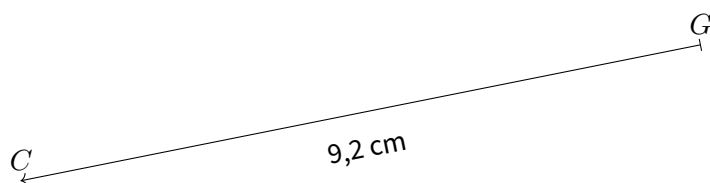

Tracer l'image du triangle OLM par la translation qui transforme S en E .

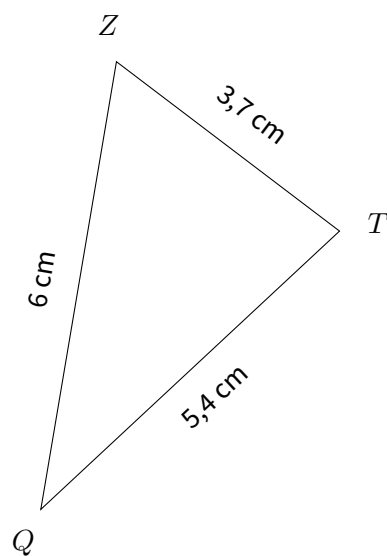

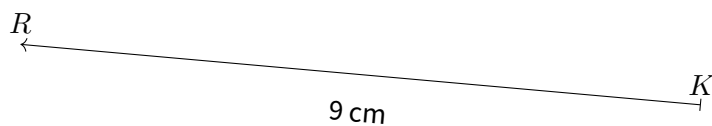

Tracer l'image du triangle MEU par la translation qui transforme G en C .

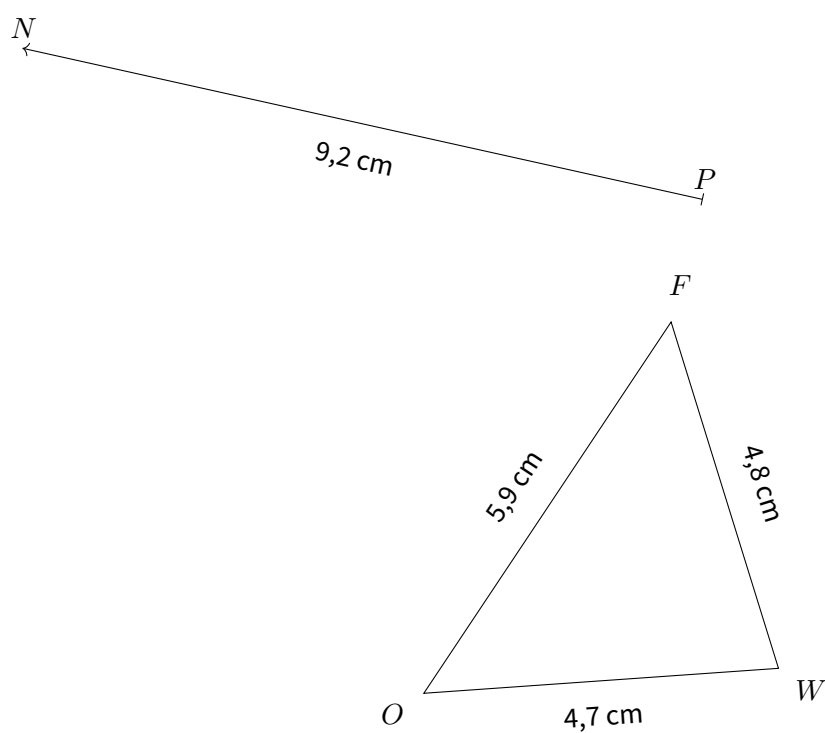

Tracer l'image du triangle QTZ par la translation qui transforme K en R .

Tracer l'image du triangle OWF par la translation qui transforme P en N .

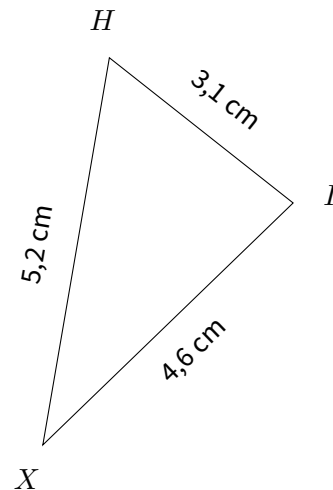

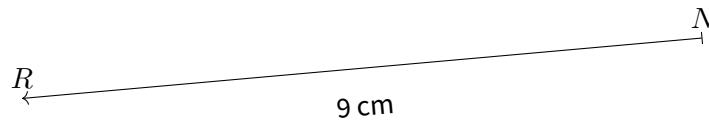

EX

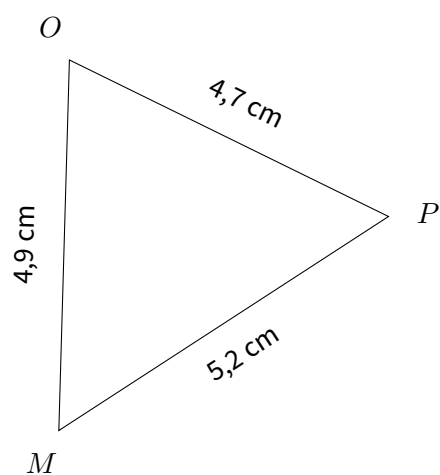

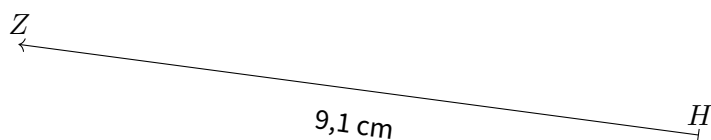

1

Tracer l'image du triangle XIH par la translation qui transforme N en R .

Tracer l'image du triangle MPO par la translation qui transforme H en Z .

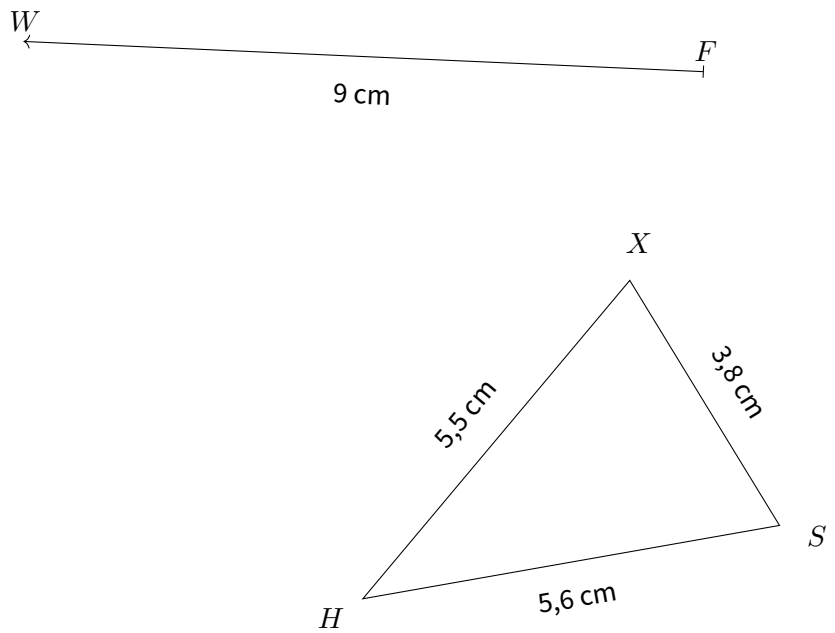

EX

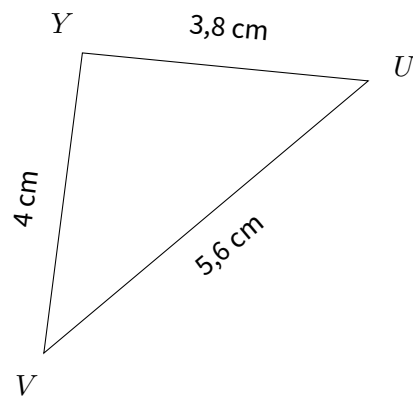

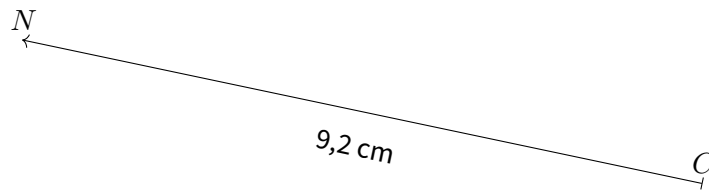

1

Tracer l'image du triangle HSX par la translation qui transforme F en W .

EX
1

Tracer l'image du triangle VUY par la translation qui transforme C en N .

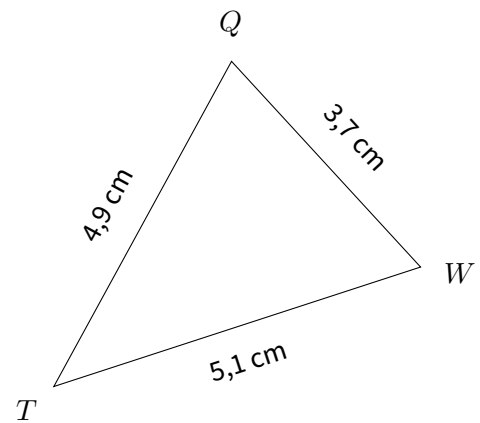

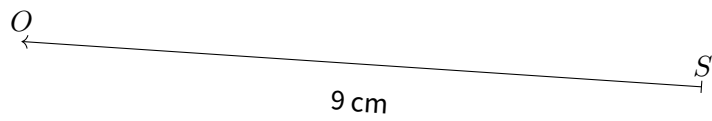

EX

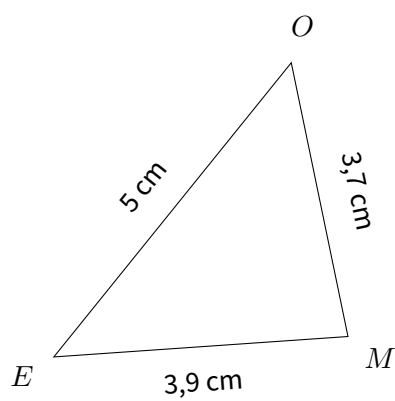

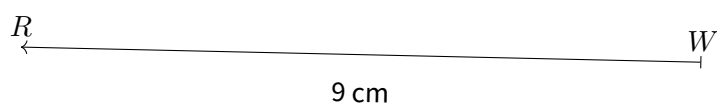

1

Tracer l'image du triangle TWQ par la translation qui transforme S en O .

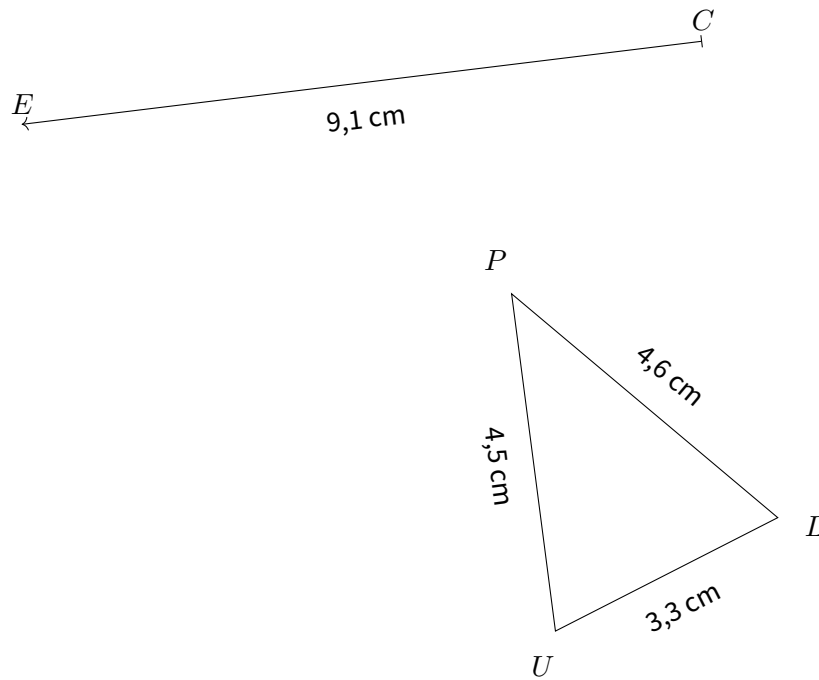

Tracer l'image du triangle EMO par la translation qui transforme W en R .

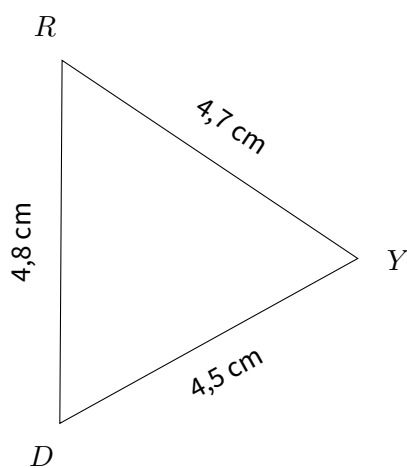

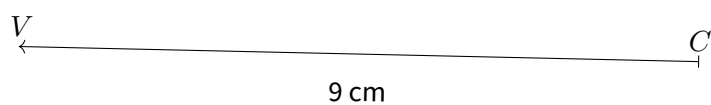

EX 1 Tracer l'image du triangle ULP par la translation qui transforme C en E .

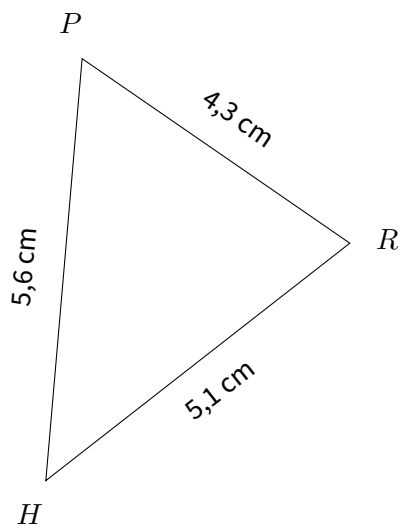

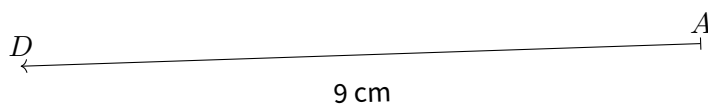

Tracer l'image du triangle DYR par la translation qui transforme C en V .

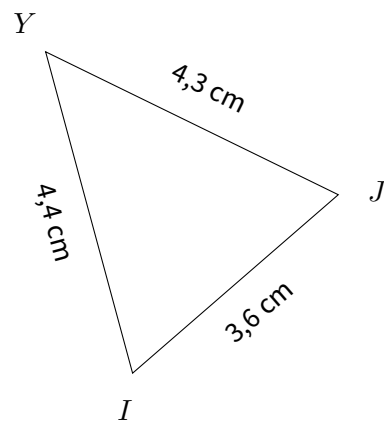

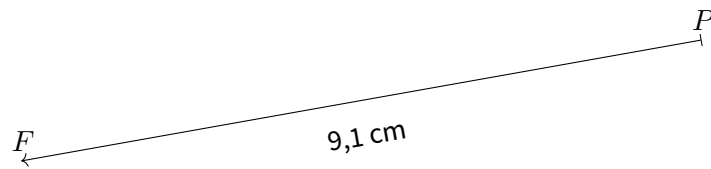

Tracer l'image du triangle HRP par la translation qui transforme A en D .

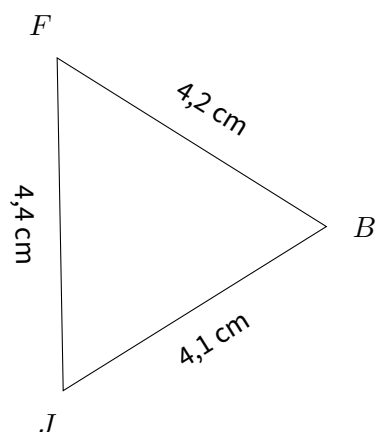

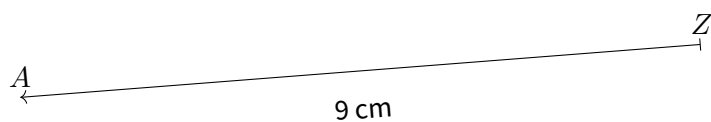

EX
1

Tracer l'image du triangle IJY par la translation qui transforme P en F .

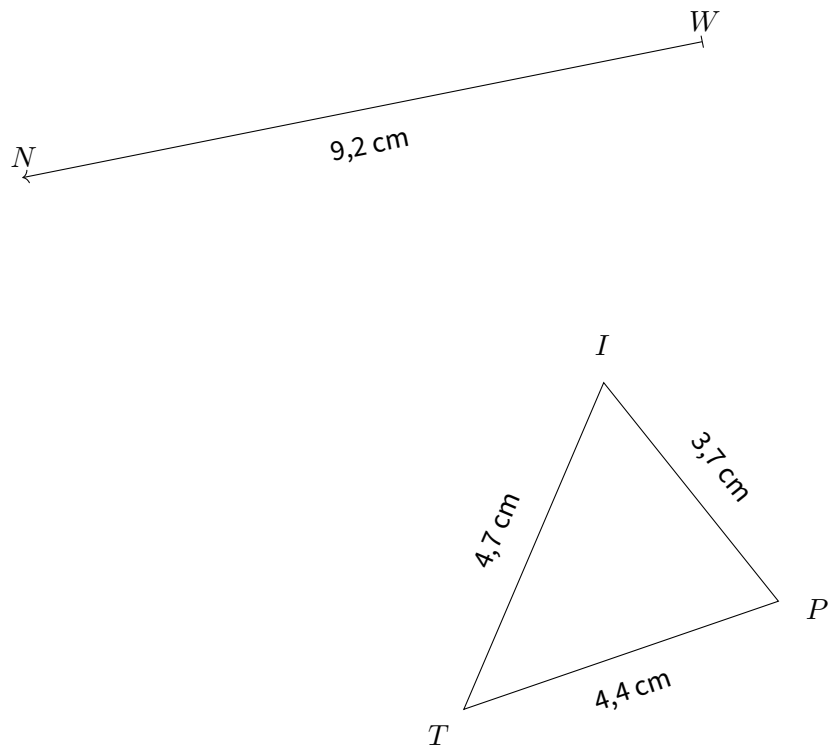

Tracer l'image du triangle $JB F$ par la translation qui transforme Z en A .

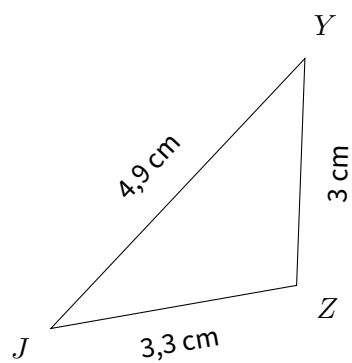

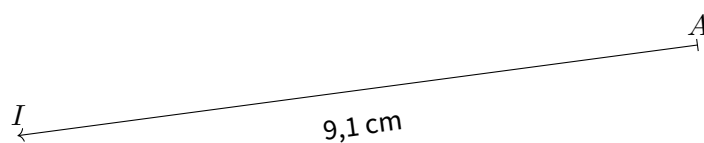

EX
1

Tracer l'image du triangle TPI par la translation qui transforme W en N .

Tracer l'image du triangle JZY par la translation qui transforme A en I .

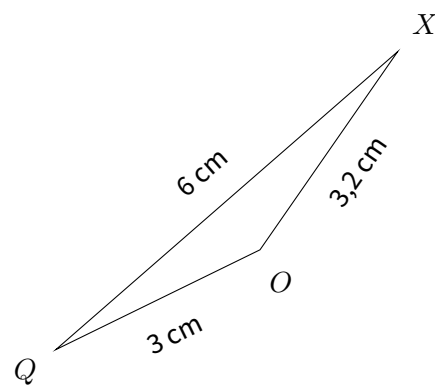

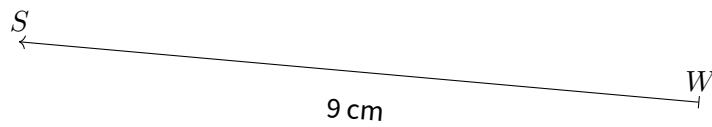

EX

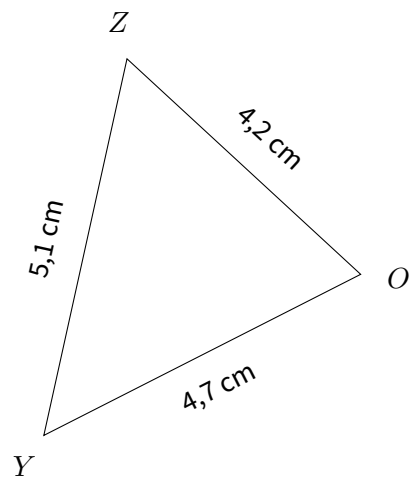

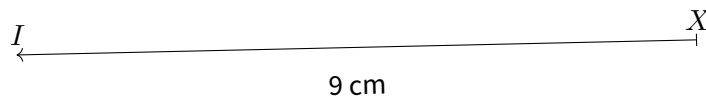

1

Tracer l'image du triangle QOX par la translation qui transforme W en S .

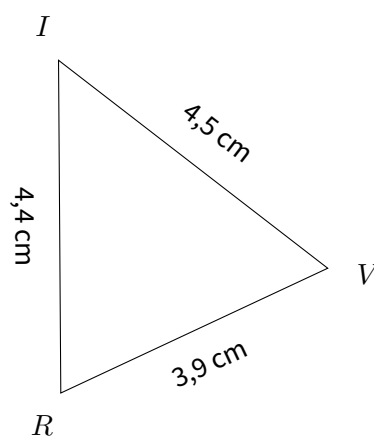

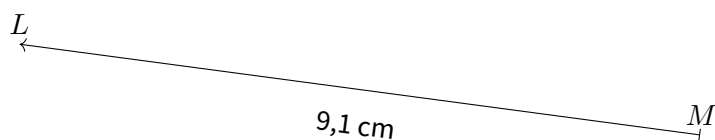

EX 1 Tracer l'image du triangle YOZ par la translation qui transforme X en I .

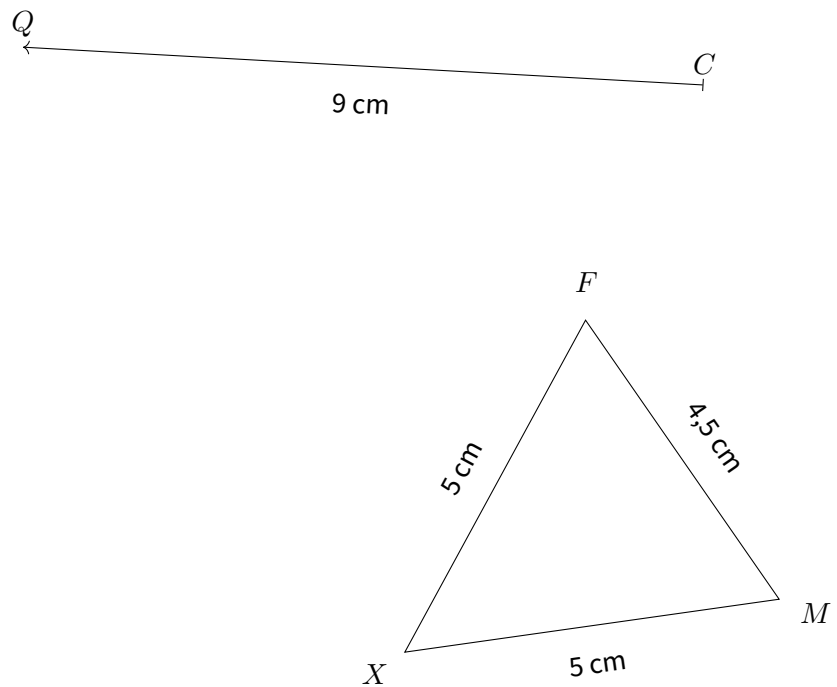

Tracer l'image du triangle RVI par la translation qui transforme M en L .

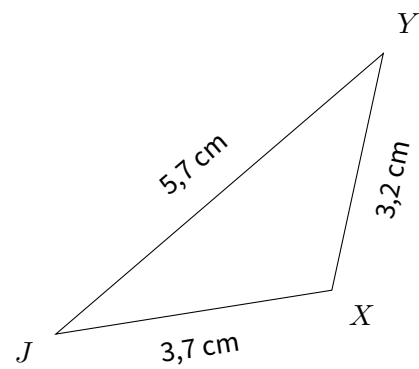

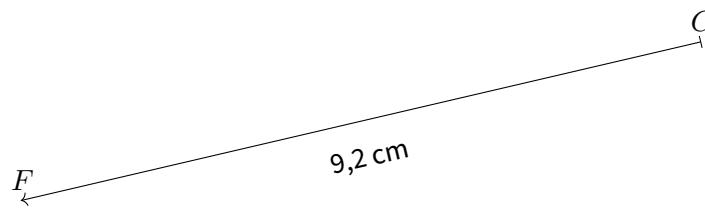

Tracer l'image du triangle $XM F$ par la translation qui transforme C en Q .

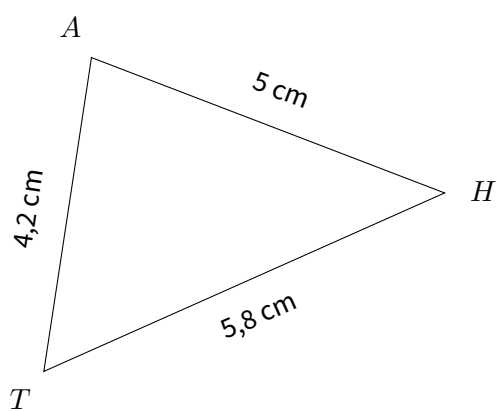

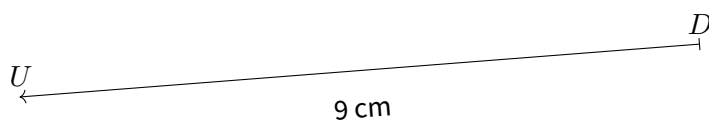

EX
1

Tracer l'image du triangle JXY par la translation qui transforme C en F .

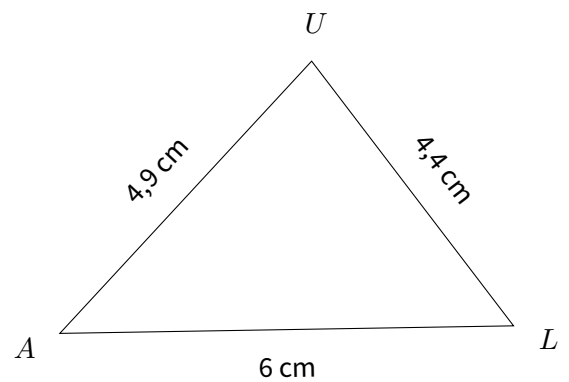

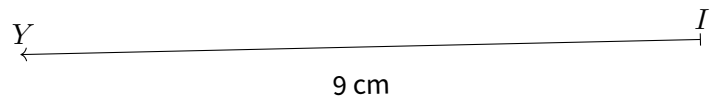

Tracer l'image du triangle THA par la translation qui transforme D en U .

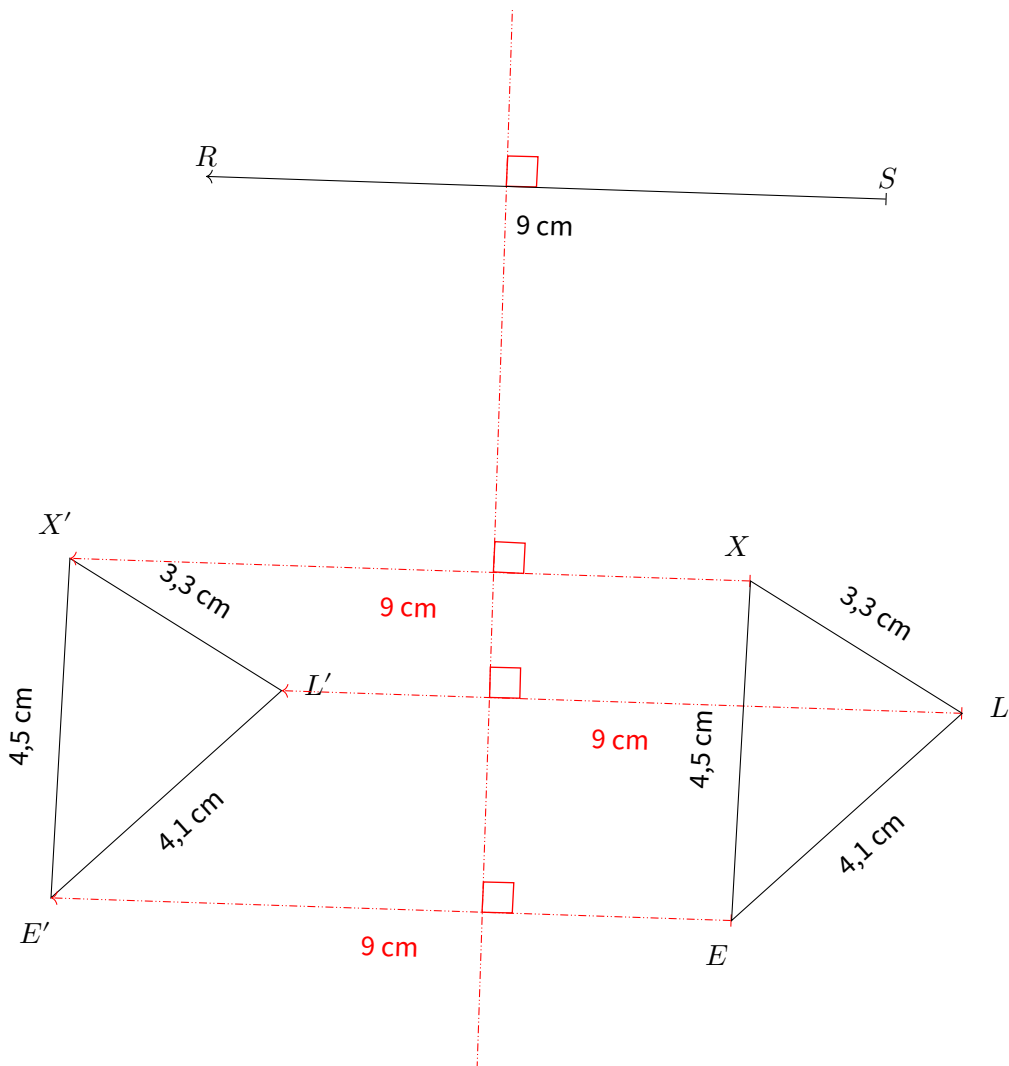

EX
1

Tracer l'image du triangle ALU par la translation qui transforme I en Y .
