

EX
1

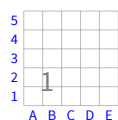

1. Construire le parallélogramme $KBHM$.

2. Construire le parallélogramme $NMJF$ de centre V . Le point F est sur la demi-droite $[Nx)$ et le point M est sur la demi-droite $[Ny)$.

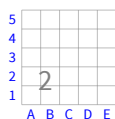

3. Construire le parallélogramme $PJXM$ de centre C .

$\times^J$

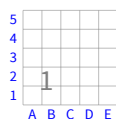

$C \times$

$\times^P$

4. Construire le parallélogramme $ABWR$.

$\times^B$

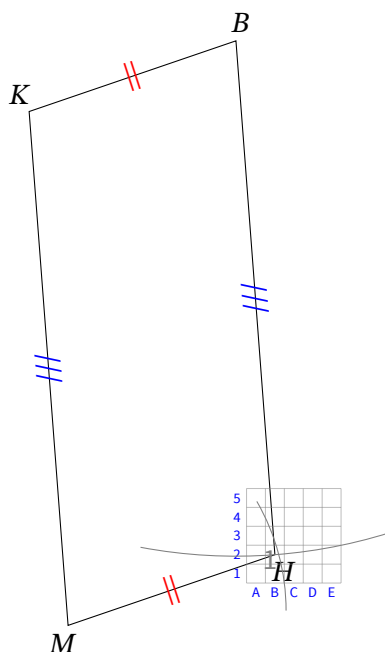

$\times^A$

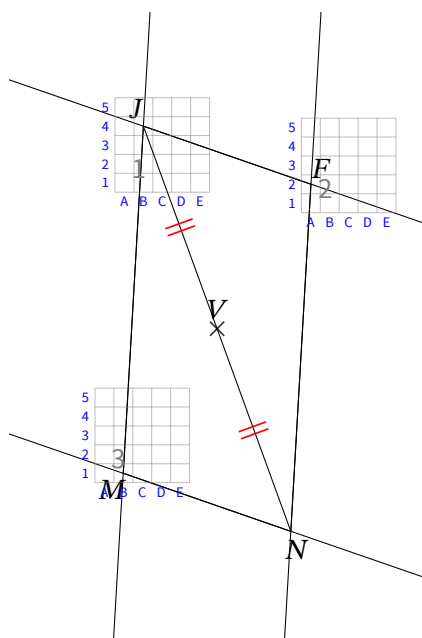

$\times^R$
